

# SDS77 ALLOY ROLLER SHUTTERS FOR RESIDENTIAL PROPERTY

## SDS77 INSULATED ALUMINIUM ROLLING SHUTTER DOOR

The SDS77 is a double walled aluminium Rolling Shutter Door, designed to provide a visible deterrent with decorative aesthetics and is ideally suited to both domestic and commercial properties. Manufactured from corrosion resistant, maintenance free 77mm x 18mm thick double skin aluminium interlocking lath sections with an insulated core providing an acoustic and thermal break with a high quality factory applied finish in a choice of 6 standard colours and 5 optional colours at extra cost and 4 woodgrain effect finishes at extra cost.

## SPECIFICATION

### Curtain

Constructed from corrosion resistant, maintenance free 77mm x 18mm thick double skin aluminium interlocking lath sections with an insulated core and a 77mm x 1.3mm extruded aluminium bottom rail with integral rubber seal.

### Guides

Constructed from extruded aluminium channel (two sizes available: standard and security) fitted with brush and neoprene weather strips.

### Barrel

Manufactured from galvanised steel hexagonal tube fitted with either a helical steel counterbalance spring (for manual operation) or a 240v single phase tubular motor unit (for electric operation).

### Coil

Casing A four-sided casing to enclose the shutter coil, manufactured from aluminium sheet, roll-formed and edged to provide reinforcement.

### Operation

Manual self coiling (push up/pull down) depending on size or electrically operated via a 240v single phase electric motor unit actuated either by an internal rocker switch, external security key-switch or UHF remote control.
