## GARAGE SECTIONAL DOORS

- Durability and security
- Energy efficiency
- Comfort and convenience

# BLENDS IN WITH ANY ARCHITECTURAL STYLE

## MODERN LOOK

With its elegant look, the microwave finish of the door complements modern buildings design. This microwave surface hides minor damages to coating to ensure that the doors continue to look good for many years to come.

## CLASSIC MAKE

The cassette finish is the element of design and it harmoniously fits into classic style houses. Cassettes are completely symmetrical and equal in width and height within a door leaf.

## PERFECT LINE

ALUTECH door with ribbed surface boasts a modern and elegant appearance and blends in with private house designs.

## WIDE RANGE OF SANDWICH PANELS

# OPTIONS

Accessories for ALUTECH sectional doors can satisfy the most demanding customers. Windows, wicket door, key lock and other options provide convenience and comfort while maintaining the attractiveness of the door.

## WINDOWS WITH DECORATIVE ELEMENTS

Optional windows are available to allow natural light into your garage and to save energy. ALUTECH windows should complement your home's architectural style. You can customize your door with a variety of window inserts to choose from.

## GARAGE SIDE DOOR

You can get an additional personnel entry door to your garage in to match the garage door. ALUTECH side door is made of aluminium profiles filled with sandwich panels.

## WICKET DOOR

Wicket door extends the garage doors life time. To enter a garage there is no need to open and close a door each time.

## KEY LOCK

For a garage without additional entrance we offer a key lock for closing the door from both inside or out.

# CAREFUL DESIGN DOWN TO THE SMALLEST DETAIL

## SPACE SAVING IDEAS FOR YOUR GARAGE

Sectional doors fit anywhere and save space!

Sectional doors open vertically and are suspended under the ceiling to save space. This installation method means you can conveniently drive into your garage and have more space inside and in front of the garage.

ALUTECH sectional doors are made to measure to ensure the fit for any size of garage door opening. The minimum headroom clearance required for your door installation is only 100 mm.

## SECURITY FOR THE WHOLE FAMILY

When you specify a door from ALUTECH, you can be sure you are getting the reliable and safe door for all members of your family.

ALUTECH doors have anti-fall safeguard, anti-finger trap and reliable protection against snagging and cutting of clothes or hands through the absence of sharp edges. These protection systems are designed as standard features with every door set at no extra costs.

ALUTECH door fulfills all the requirements of European safety standards: EN 12604; EN 12453; EN 12424; EN 12425; EN 12426.

## ENERGY EFFICIENCY

EXCELLENT THERMAL INSULATION PROPERTIES ARE THE DISTINCTIVE FEATURES OF ALUTECH GARAGE DOOR

High heat-insulating properties of ALUTECH sectional doors are confirmed by numerous tests conducted by the independent testing accredited laboratories:

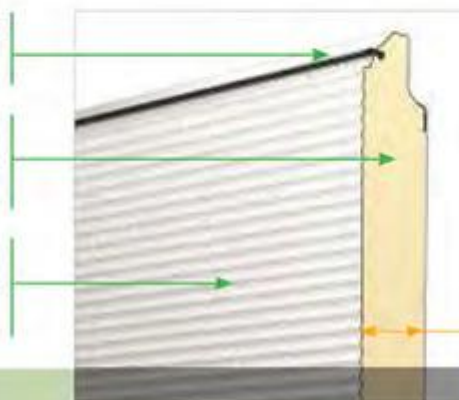

- the St. Petersburg State Architecture and Construction University (Saint-Petersburg, Russia);
- the Building Research Institute NISI (Bulgaria).

## DURABILITY AND RELIABLE PROTECTION

Every sandwich panel is fitted with polymer EPDM-seal that eliminates gaps between panels and guarantees high thermal and sound door insulation.

The inner space of ALUTECH sandwich panel is evenly filled with CFC-free foamed polyurethane to protect against the cold and to maintain a comfortable indoor temperature.

ALUTECH sandwich panel is made of galvanized steel with a high quality polymer coating to ensure high anticorrosive properties and high resistance to scratching.

One of the most durable sandwich panels in Europe

45 mm

# COMFORT OF SECTIONAL DOOR OPERATION

## EFFORTLESS DOOR OPERATING

ALUTECH sectional door can be easily opened and closed manually due to the dead weight compensation mechanism utilising springs. ALUTECH decorative two-sided handle is to facilitate the door opening and closing.

The minimum spring service life is 25 000 cycles or 17 years of operation (4 opening/closing cycles per day throughout the period).

## MODERN TECHNOLOGY FOR YOUR HOME

ALUTECH automated garage door will give you more comfort and convenience by means of fully automated operation.

You will really appreciate an automatic garage door opener on those cold, dark or rainy days. With just one push of a button on your transmitter you will be able to drive straight into your garage without having to get out and open the door.

There are two fundamental principles that govern the manufacture of ALUTECH sectional doors: established tested designs and high quality materials. We strive to provide our customers with high-quality, reliable and secure doors at competitive prices to enjoy total comfort for years to come.

At present ALUTECH sectional doors are in high demand in the CIS, Baltic countries, Germany, France, Austria, Denmark, the Netherlands, the Czech Republic and other European countries.

ALUTECH doors have been installed on hundreds of thousands of premises.
